*The rooms were nice. Breakfast is included with very good coffee, starting this year. Have some fun in the sauna area. It's not on one of the main streets rather a narrow street between the bigger streets. It's not a Hilton rather it has some character and life. There is wireless Internet if you bring your laptop and also a computer to use in the lobby. The guys are nice who work there. Beach is ten minutes away. Bars are right around the corner.*
